

# MEETING PLANS & IDEAS: FISHING

<a href="#">Fishing</a>	<a href="#">Information</a>	<a href="#">Troop Meetings</a>	<a href="#">Main Event</a>
-------------------------	-----------------------------	--------------------------------	----------------------------

## OBJECTIVES

This month's activities should:

- Introduce basic fishing skills to Scouts who have limited exposure to fishing.
- Improve the fishing skills of Scouts at all levels of experience.
- Ensure that Scouts have a reasonable chance for success by teaching them how to find fish, how to fish for them, how to set a hook, and how to play fish to land them.
- Teach Scouts what equipment is needed, how to cast efficiently, how to rig their outfits effectively, and how to take proper care of all the gear.
- Introduce important knots, including where and why each is used.
- Teach Scouts how to release their catch or prepare it for cooking.
- Cover possible risks and health threats while fishing and how to deal with the most likely problems.
- Emphasize conservation and the role that no-trace guidelines play in sport fishing.

## LEADERSHIP PLANNING

As a leadership team, you may want to discuss the following items when choosing fishing as your program feature during your planning meetings.

- Where can we find qualified fishing instructors to teach during the weekly meetings? (Merit badge counselors or BSA-trained angling instructors would be ideal.)
- Where is the best location for a fishing event?
- What fishing equipment will we need, and where can we acquire it?
- What rules and regulations apply in our area? Do Scouts need fishing licenses?
- What lures or bait should we use to attract the fish that live in our selected fishing location?
- How will we prepare for the expected weather conditions?

## PREOPENING IDEAS

### [Preopening Ideas on Troop Program Resources](#)

- Display an album of great fishing pictures from the Internet or other sources. Have copies of the Boys' Life annual April fishing issue on hand.
- Have several rods available for Scouts to review and cast to determine their skill levels. Include spincast, spinning, and fly rods. (Use a hookless lure or casting plug.)
- Display a fishing knot board featuring five basic fishing knots: Palomar knot, improved clinch knot, double surgeon's knot, loop to loop, and blood knot. See who can identify each knot and its use. Let Scouts practice.
- Have older Scouts dress inappropriately for a fishing trip. Challenge other Scouts to tell

them what should be changed, eliminated, or added for the upcoming trip.

## OPENING IDEAS

[Opening Ideas on Troop Program Resources](#)

## GROUP INSTRUCTION IDEAS

### Introduction to Fishing

- Discuss plans for the next four weeks and details of the main event.

### Casting Technique

- Introduce the three types of fishing rods, and point out the one each skill level group should use. Discuss quickly the differences and why Scouts should use each.

### Knots

- Introduce the basic fishing knots and riggings. Explain how important it is to learn them in order to succeed.

### How to Fish

- Explain that the Scouts are about to have a great outing, but only if they have prepared properly, including assembling all the necessary fishing tackle.

## SKILLS INSTRUCTION IDEAS

### Introduction to Fishing

- Discuss the basics of fishing.
- Outline the benefits and opportunities.
- Demonstrate the spin-cast outfit, how it works, and how it is fished.
- Challenge Scouts to complete the Fishing merit badge.

- Have Scouts use an open-faced spinning outfit.
- Demonstrate and instruct on how to best use spinning outfits effectively.
- Challenge Scouts to complete the Fishing merit badge

- ◆ Introduce the opportunity for earning the Fly-Fishing merit badge during this month.
- ◆ Teach fly-fishing basics.

### Casting Technique

- Demonstrate casting with spinning outfits and instruct Scouts how to cast. Let them practice on a lawn with ample spacing using plugs or hookless lures. Remember, no hooks.
- Discuss human impact on animals in the wild.

- Demonstrate and instruct Scouts to spincast outfits. Let them practice on a lawn with ample spacing using plugs or hookless lures. Remember, no hooks.
- 

- Demonstrate roll cast and overhead cast fly-rod outfits and instruct Scouts in their use. Let them practice on a lawn with ample spacing using hookless flies or tufts of yarn. Remember, no hooks. Allow ample room both in front of and behind each Scout for casting.

### Knots

- Demonstrate the five basic knots, and instruct Scouts in tying them. Let them practice with small-diameter cord and then with monofilament line.
- 

- Demonstrate the five basic knots, and instruct Scouts in tying them. Let them practice with small-diameter cord and then with monofilament line. If Scouts already know the knots, have them use the EDGE method to teach them to the other Scouts.
- 

- Demonstrate the five basic knots plus a nail knot for flyfishing, and instruct Scouts in tying them. Let them practice with small-diameter cord and then with monofilament line. If Scouts already know the knots, have them use the EDGE method to teach other Scouts.

### How to Fish

- Review all tackle Scouts will use and where or how they can obtain it.
  - Discuss what will be supplied by the troop, and what they will be responsible for bringing.
- 

- Review all tackle Scouts will use and where or how they can obtain it.
  - Discuss what will be supplied by the troop, and what they will be responsible for bringing.
  - Inspect the gear being provided by the unit or unit families.
- 

- Review all tackle Scouts will use and where or how they can obtain it. Discuss what will be supplied by the troop, and what they will be responsible for bringing.
- Inspect the gear being provided by the unit or unit families.
- Make repairs as needed.

- Duty Roster Planning
- Equipment check

## GAME AND CHALLENGE IDEAS

### [Library of Games and Challenges on Troop Program Resources](#)

- [Name That Fish](#)
- **Fish Identification Challenge**
  - *Materials:* Several Backyard Bass (plastic casting targets shaped like fish, available at [backyardbass.com](http://backyardbass.com)), clear packing tape, permanent marker, spinning rods and reels
  - *Preparation:* On the underside of each Backyard Bass, attach a picture of a fish with clear packing tape. Using a permanent marker, write a point value from 1 to 5 on each fish. Assign lower point values to fish that are easier to identify, such as bluegills, and higher values to more difficult fish, such as sturgeon.
  - *Method:* Give each Scout three to five opportunities to cast and catch fish. (Do not use hooks; use only hookless lures or casting plugs.)
  - *Scoring:* Award points to Scouts only if they can identify the picture of the fish they catch.
  - *Variation:* Award points for catching a fish and bonus points for identification.
- **Casting Accuracy Challenge**
  - *Materials:* Several Backyard Bass, hula hoops, or plates; caution or surveyor's tape
  - *Preparation:* Use the tape to create a line simulating a shoreline. Spread the Backyard Bass, hula hoops, or plates on the lawn.
  - Method:* From the shore, Scouts practice casting to catch the Backyard Bass or hit the hula hoops or plates. (No hooks; use only hookless lures or casting plugs.)
  - *Scoring:* Assign points for each successful cast. For example, you could give 1 point for hitting inside a hula hoop, 2 points for hitting a plate, and 3 points for catching a Backyard Bass.
- **Fishing Knot Patrol Challenge**
  - *Materials:* for each patrol, a 6-foot length of heavy monofilament line, a large gauge hook with the point safely masked.
  - *Method:* The leader calls off one of the [seven fishing knots](#), and the patrol as a team must correctly tie the knot using the line and, if necessary the hook. If they can, they present their knot to a judge who determines that it is or is not tied correctly.
  - *Scoring:* Each patrol that can tie the knot correctly within a minute's time, receives a point.
